Water Infrastructure Group at the ACRA Awards Seminar

Stijn Sampermans from Water Infrastructure Group was a guest speaker at the Australian Concrete Repair Association Awards Seminar held in Sydney in February this year.

Stijn provide an overview of Water Infrastructure Group's sewer maintenance hole rehabilitation project for Moreton Bay Regional Council which won an ACRA Award for Excellence in 2010.

"As well as describing Water Infrastructure Group's technical methodology and workflow for maintenance hole rehabilitation, I provided the industry audience details of our approach to community consultation and traffic control which are key elements in the successful to delivery of these types of projects."

"It's fantastic that Water Infrastructure Group's efforts in this area have been recognised by the industry and these seminars also provide a great opportunity to share knowledge and get useful feedback on our innovations from industry experts," Stijn said.

About Water Infrastructure Group

Water Infrastructure Group provides a unique combination of design, build, operate and maintenance services. We offer sole-source accountability for streamlined delivery of sustainable water infrastructure to meet community and business needs.

Our holistic approach to infrastructure delivery results in:

- Award winning innovation
- Reduced costs
- Guaranteed performance
- Individualised solutions
- Comprehensive environmental compliance
- Enhanced risk management

Water Infrastructure Group is an Australian leader in water recycling and Australia's largest supplier of Class A recycled water for farming and residential use. We have led the way with the introduction and regulatory approval of microfiltration technology for water recycling and our innovation and contributions to the water industry have been recognised by Australian and international excellence awards.

We have an extensive track record in the delivery of water and sewage treatment plants and we are one of Australia's leading infrastructure rehabilitation specialists, providing services such as pipeline inspection, assessment, linings, coatings and major valve work.

Formed in 2008, Water Infrastructure Group has over 200 people and combines the complementary skills of the former Earth Tech water projects group with Tyco's Water Technology Australia and Water Services businesses to deliver an expanded range of services that cater for the needs of customers and current developments in the water industry. More information about Water Infrastructure Group can be found at www.wigroup.com.au.

Water Infrastructure Group is a Tyco International Ltd company. Tyco is a diversified, global company that provides vital products and services to customers in more than 60 countries and has 118,000 employees worldwide. More information on Tyco can be found at www.tyco.com.
