

Media Release – March 2010

## Water Infrastructure Group Awarded Major Contract for Christies Beach

Water Infrastructure Group has been awarded a major mechanical and electrical works contract for the \$272 million upgrade of the Christies Beach Wastewater Treatment Plant by SA Water.

The Christies Beach plant was first commissioned in 1971 and its capacity is being upgraded from 30 to 45 ML/d AAF. The upgrade will allow the plant to continue to serve the expanding population of southern metropolitan Adelaide and provide reclaimed water for irrigation in the southern suburbs. The upgrade includes a new membrane bioreactor plant that will help reduce nitrogen discharged to Gulf St Vincent.

Water Infrastructure Group will carry out mechanical and electrical works associated with the bioreactors, membrane plant, UV plant and the blowers building. Commissioning of the upgraded plant is scheduled for mid 2012.

## About Water Infrastructure Group

Water Infrastructure Group provides a unique combination of design, build, operate and maintenance services. We offer sole-source accountability for streamlined delivery of sustainable water infrastructure to meet community and business needs.

Our holistic approach to infrastructure delivery results in:

- Award winning innovation
- Reduced costs
- Guaranteed performance
- Individualised solutions
- Comprehensive environmental compliance
- Enhanced risk management

Water Infrastructure Group is an Australian leader in water recycling and Australia's largest supplier of Class A recycled water for farming and residential use. We have led the way with the introduction and regulatory approval of microfiltration technology for water recycling and our innovation and contributions to the water industry have been recognised by Australian and international excellence awards.

We have an extensive track record in the delivery of water and sewage treatment plants and we are one of Australia's leading infrastructure rehabilitation specialists, providing services such as pipeline inspection, assessment, linings, coatings and major valve work.

Formed in 2008, Water Infrastructure Group has over 200 people and combines the complementary skills of the former Earth Tech water projects group with Tyco's Water Technology Australia and Water Services businesses to deliver an expanded range of services that cater for the needs of customers and current developments in the water industry. More information about Water Infrastructure Group can be found at [www.wigroup.com.au](http://www.wigroup.com.au).

Water Infrastructure Group is a Tyco International Ltd company. Tyco is a diversified, global company that provides vital products and services to customers in more than 60 countries and has 118,000 employees worldwide. More information on Tyco can be found at [www.tyco.com](http://www.tyco.com).
