Water Infrastructure Group Trenchless Technology on Show

Water Infrastructure Group will be displaying some of its recent projects and proprietary trenchless technology on Stands 82 and 83 at No-Dig Down Under 2011.

Australia's premier trenchless event will be staged at the Brisbane Convention and Exhibition Centre from 3-6 October.

The Australasian Society for Trenchless Technology National Conference and Exhibition is a four-day event that includes panel sessions on all aspects of Trenchless Technology by over 40 world-class speakers.

This year's exhibition features 67 exhibitors and provides a great forum for showcasing and learning about a variety of impressive technologies.

Project of the Year – Rehabilitation

Water Infrastructure Group's Bondi Ocean Outfall Sewer Rehabilitation project, which involved rehabilitating 911 metres of sewer with two different relining technologies for Sydney Water has been nominated for the Australasian Society for Trenchless Technology Project of the Year - Rehabilitation.

The winner of this prestigious award will be announced during the Gala Dinner on October 5 as part of No-Dig Down Under 2011.

The awards recognise innovation in concept, novelty in technology, environmental benefits and occupational health and safety benefits in both Rehabilitation and New Installation projects involving Trenchless Technology.

About Water Infrastructure Group

Water Infrastructure Group provides a unique combination of design, build, operate and maintenance services. We offer sole-source accountability for streamlined delivery of sustainable water infrastructure to meet community and business needs.

Our holistic approach to infrastructure delivery results in:

- Award winning innovation
- Reduced costs
- Guaranteed performance
- Individualised solutions
- Comprehensive environmental compliance
- Enhanced risk management

Water Infrastructure Group is an Australian leader in water recycling and Australia's largest supplier of Class A recycled water for farming and residential use. We have led the way with the introduction and regulatory approval of microfiltration technology for water recycling and our innovation and contributions to the water industry have been recognised by Australian and international excellence awards.

We have an extensive track record in the delivery of water and sewage treatment plants and we are one of Australia's leading infrastructure rehabilitation specialists, providing services such as pipeline inspection, assessment, linings, coatings and major valve work.

Formed in 2008, Water Infrastructure Group has over 200 people and combines the complementary skills of the former Earth Tech water projects group with Tyco's Water Technology Australia and Water Services businesses to deliver an expanded range of services that cater for the needs of customers and current developments in the water industry. More information about Water Infrastructure Group can be found at www.wigroup.com.au.

Water Infrastructure Group is a Tyco International Ltd company. Tyco is a diversified, global company that provides vital products and services to customers in more than 60 countries and has 118,000 employees worldwide. More information on Tyco can be found at www.tyco.com.
