

Water Infrastructure Group

Environmental Policy

Water Infrastructure Group is a company providing services associated with design, supply, construction, ownership, operations and maintenance to cater for the infrastructure needs of public and private sector clients in Australia and New Zealand. In keeping with our mission, values and business approach we are committed to operating in a manner that will protect and improve the environment

The nature of Water Infrastructure Group's activities places particular emphasis on expertise, experience, capability and reliability. Our staff share the responsibility for the quality of services supplied to our clients, by creating and maintaining a safe and healthy working environment, and by ensuring that projects are completed in an environmentally responsible manner. Our goal is "Zero significant impact on the environment from our ongoing projects"

Water Infrastructure Group recognises its responsibility towards the environment and will carry out all of its activities in a manner respectful and protective of our goal. To achieve this, together with conforming to company global policies we commit to:

- maintain and update an environmental management system which provides a structured process for the identification and communication of environmental issues
- set environmental objectives and measurable targets relevant to the business, this policy and related company procedures
- comply with all applicable environmental legislation, regulation, licensing requirements and any other requirements to which we voluntarily subscribe and which customers specify.
- eliminate or minimise any detrimental effects on the environment by taking potential environmental impacts into account in the planning, design, construction and operational phases of our business.
- employ purchasing practices that consider the life cycle of products and their environmental impacts
- monitor and manage our impact on the environment to achieve continual improvement
- promote resource conservation and waste minimisation programs within the organisation
- educate and involve staff in the achievement of our environmental objectives
- inform stakeholders such as clients, industry associations and the general public of our environmental commitment
- ensure our goods and service providers reflect our environmental culture.

Achievement of the goals set out in this Policy is the responsibility of all the employees of Water Infrastructure Group.

Peter Everist
